FIG. 4

A cross-sectional view of a curved structure. A central vertical element, labeled 14, is positioned within a curved layer labeled 12. The layer 12 is hatched with diagonal lines. Above the layer 12, there is a curved surface labeled 11. Below the layer 12, there is a curved surface labeled 13. The entire structure is supported by a curved base labeled 3. A dashed line labeled 4 is shown below the base 3. A curved line labeled 6 is also shown below the base 3.
